**RESPONSE TO RESTRICTION REQUIREMENT**

Sir:

In response to the Office Action dated April 17, 2007, Applicants provisionally elect the claims of Group I (i.e., claims 1-13).

While the system of Group I and the method of Group II may be distinct as set forth by the Examiner, Applicants believe that simultaneous examination will not present an undue burden. For example, the claims of Group I are drawn to an echo canceller for an asymmetric communication system, and the claims of Group II are drawn to a method for downloading a filter coefficient of an echo canceller. The subject matter of the two claim groups can be found in class 370. Under such circumstances, the Examiner is encouraged to maintain the claims of Groups I and II in the same application. See, MPEP § 803.

Early and favorable consideration of the application is earnestly solicited.
